SKILLS

Languages: Java, JavaScript, Python, C++, PHP

Frameworks: HTML, Tailwind CSS, NodeJS, React JS, Express JS

Tools/Platforms: MySQL, MongoDB

Soft Skills: Problem-Solving, Adaptability, Leadership, Communication

PROJECTS

- driveSutraGo.com - MERN Project | [GitHub](#) [Live Link](#)

Sep' 2025 – Dec' 2025

 - Built a **gamified eco-driving MERN platform** aimed at promoting sustainable driving habits through real-time performance tracking, rewards, and community engagement.
 - Engineered using real-time Geolocation APIs with features like AI driving coach, eco-score analytics, challenges, leaderboards, and virtual community forests.
 - Achieved **30% improvement in driving efficiency**, **real-time trip accuracy within <5s latency**, and **increased user engagement by 50%** via points, levels, and achievements.

Tech: ReactJS, NodeJS, Express, MongoDB, Socket.io, Tailwind CSS
- DSA Project - Skill Based Candidate Shortlisting System | [GitHub](#)

Jun' 2025 – Jul' 2025

 - Targeted building a Java-based DSA solution aimed at helping recruiters assess candidate skills and experience for objective, fair shortlisting.
 - Structured the system using modular OOP design, with separate classes for candidate data input, skill-level mapping, and job-requirement parsing with custom weightage rules.
 - Delivered 70% faster** and more accurate shortlisting by automating the evaluation process, improving overall hiring efficiency.

Tech: DSA, OOPS, Java
- Kahan Chale - Tour Operator Website | [GitHub](#)

Mar' 2025 – May 2025

 - Created a fully responsive tourism website aimed at simplifying tour planning, package selection, and user interaction for travellers.
 - Assembled key modules including tour package management, booking system, guide assignment, user login panel and feedback/contact features with smooth search, sorting, and filtering by budget, destination, and duration.
 - Resulted in a 50% improvement** in overall user navigation and carried a 90% user satisfaction rate through real-time feedback integration and an intuitive browsing experience.

Tech: HTML, Tailwind CSS, JavaScript, PHP, MySQL

TRAINING

- Basics Of DSA – Lovely Professional University | [Certificate Link](#)

May 2025 – Jun' 2025

 - Covered core data structure fundamentals including Arrays, Linked Lists, Stacks, Queues, HashMaps, Heaps, Trees, Graphs, and introductory Dynamic Programming.
 - Applied implementation-based problem solving with emphasis on time–space complexity analysis, searching/sorting techniques, and code refinement.
 - Strengthened ability to use DSA concepts in real-world and competitive programming scenarios through regular hands-on coding exercises and assessments.

CERTIFICATES

- Software Engineer | [HackerRank](#)

Feb' 2026
- Java (Basic) | [HackerRank](#)

Sep' 2025
- Build Generative AI Apps and Solutions with No-Code Tools | [Udemy](#)

Aug' 2025
- Social Networks | [NPTEL](#)

May 2025
- Object Oriented Programming - Neocolab | [NeoColab](#)

Dec' 2024
- Data Structures and Algorithm - Neocolab | [NeoColab](#)

Dec' 2024

ACHIEVEMENTS

- Secured Global Rank 2487th in Biweekly Contest 172 of [LeetCode](#)

Dec' 2025
- Attained a Global Rank 1313st on [Codolio](#)

Dec' 2025
- Earned Problem Solver Bronze Badge from [CodeChef](#)

Sep' 2025

EDUCATION

- Lovely Professional University

Bachelor of Technology - Computer Science and Engineering; **CGPA: 8.64**

St. Mary's Convent School

Intermediate; **Percentage: 91.75%**

St. Mary's Convent School

Matriculation; **Percentage: 95%**
- Punjab, India

Aug' 2023 - Present

Hinauli, Mughalsarai

Apr' 2022 – Mar' 2023

Hinauli, Mughalsarai

Apr' 2020 – Mar' 2021
